Embedded Derivatives:	Yes, this product consists of a time deposit (in the Deposit Currency) and buying one or multiple foreign exchange option(s) on the reference currency pair
Maximum Potential Gain:	The maximum potential gain is limited to the interest amount as determined by the Interest Rate as stated in the Term Sheet of the product
Maximum Potential Loss:	For details, please refer to the "Payoff Scenario Analysis" below

* Exchange rate of CNY refers to the rate quoted in either onshore or offshore market as specified in the Term Sheet of each transaction.

Important Facts Statement

Currency Linked Principal Guaranteed Deposit European Bullish/Bearish (One Observation Date, One Trigger Level) 21 September 2020

What is this product and how does it work?

What is Currency Linked Principal Guaranteed Deposit ("CLPGD")?

CLPGD is a structured investment product. It consists of a time deposit in the Deposit Currency and buying one or multiple foreign exchange option(s) on the reference currency pair. Its return is linked to the performance of the Reference Exchange Rate(s) and the product is principal protected at maturity.

What is CLPGD - European Bullish/Bearish?

CLPGD - European Bullish/Bearish is a type of CLPGD. You may enter into a Bullish or Bearish CLPGD according to your view on the movement of the Reference Exchange Rate(s). At the pre-determined time on the Observation Date(s) when the Reference Exchange Rate(s) are determined, if the Reference Exchange Rate(s) meet the pre-determined condition, then interest amount will be distributed to you at pre-determined interest rate as specified in the Term Sheet of the product. Principal will be repaid in the Deposit Currency at maturity as the product is principal guaranteed.

What is CLPGD - European Bullish/Bearish (One Observation Date, One Trigger Level)?

CLPGD - European Bullish/Bearish (One Observation Date, One Trigger Level) is an European Bullish/Bearish type CLPGD with the structure that the interest amount payable is determined by the performance of Reference Exchange Rate on an Observation Date against a Trigger Level.

Maturity Payout:

CLPGD - European Bullish (One Observation Date, One Trigger Level): The Bank will pay you the principal and a higher interest amount in the Deposit Currency if, at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined, the Reference Exchange Rate is trading at or above the Trigger Level; otherwise you will only receive the principal and a lower interest amount (or even no interest payment) in the Deposit Currency.

CLPGD - European Bearish (One Observation Date, One Trigger Level): The Bank will pay you the principal and a higher interest amount in the Deposit Currency if, at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined, the Reference Exchange Rate is trading at or below the Trigger Level; otherwise you will only receive the principal and a lower interest amount (or even no interest payment) in the Deposit Currency.

Please refer to the "Payoff Scenario Analysis" below for detailed illustrations.

What are the key risks?

- **Principal Guaranteed at Maturity Only** - The principal guaranteed feature is only applicable if CLPGD is held to maturity.
- **Derivative Risk** - CLPGD is embedded with currency option(s). Option transactions involve risks. When you buy an option, the option value might become worthless if the market moves against your expectation.
- **Not a Protected Deposit** - CLPGD is not equivalent to time deposit and should not be regarded as a substitute for time deposit. CLPGD is not a protected deposit and is not protected by the Deposit Protection Scheme in Hong Kong.
- **Foreign Exchange Risk** – The return of CLPGD is linked to the performance of the reference exchange rate(s). Movements in exchange rates can be sudden and drastic, and affected by complex political and economic factors. You will be exposed to a risk of loss arising from exchange rate fluctuations. If the Deposit Currency is not your home currency, and you choose to convert it back to your home currency upon maturity, you may make a gain or loss due to exchange rate fluctuations.

Important Facts Statement

Currency Linked Principal Guaranteed Deposit European Bullish/Bearish (One Observation Date, One Trigger Level) 21 September 2020

- **Exchange Control** - For currencies subject to exchange controls imposed by the relevant governments, such as renminbi (RMB), the exchange rates may be easily affected by change in government policies. Such currencies may have different exchange rates quoted in different markets. For example, exchange rates of RMB are quoted in onshore and offshore markets; the onshore rate of RMB is being referred as "CNY" and the offshore rate (i.e. when traded in Hong Kong) is being referred as "CNH". Although CNY and CNH represent the same currency, they do not necessarily have the same exchange rate and may not move in the same direction.
- **Limited Potential Return** - Investing in CLPGD is not the same as investing in the reference currency pair directly. Even if your view of the market movement of the reference exchange rate(s) is correct, the maximum potential return is limited to the pre-determined interest amount for the CLPGD.
- **Credit Risk** - CLPGD is not supported by any collateral or guarantee. CLPGD is subject to the creditworthiness of the Bank. If the Bank becomes insolvent or goes into liquidation or defaults on its obligations under the CLPGD while it is still outstanding, you will rank as an unsecured creditor of the Bank and could, in the worst case, lose your entire principal irrespective of the terms of the CLPGD.
- **Liquidity Risk** - CLPGD is designed to be held until maturity. CLPGD is not listed on any exchange, has no secondary market and is not transferable. Any termination, cancellation or withdrawal prior to maturity is subject to the sole discretion and consent of the Bank. You may incur significant costs or losses as a result of early termination, cancellation or withdrawal.
- **Adjustment and Early Termination** - The Bank has the right (but not the obligation) to adjust the terms of or to early terminate the CLPGD upon occurrence of certain events. If the terms of CLPGD are adjusted or the CLPGD is terminated by the Bank early, you may suffer a substantial loss under this product. See "Can the Bank adjust the terms or early terminate this product?" below.
- **Conflicts of Interest** - Potential conflicts of interest may arise from the different roles played by the Bank, its subsidiaries and/or its affiliates in connection with the CLPGD. The Bank and/or its subsidiaries and/or its affiliates may enter into, adjust or unwind transactions relating to the relevant currencies, whether for its or its subsidiaries' or its affiliates' proprietary accounts or for account under management or to facilitate transactions on behalf of you or otherwise. In carrying out these roles, the Bank's economic interests and those of its subsidiaries and/or its affiliates are potentially adverse to your interest in the CLPGD.
- **Not Covered by the Investor Compensation Fund** - The CLPGD is not listed on any stock exchange and is not covered by the Investor Compensation Fund in Hong Kong.
- **Settlement Risk** - Upon entering into the CLPGD, you shall assume all settlement risks relating to the Bank failing to settle the CLPGD on, before or after the maturity date.
- **For Settlement Fund of the Order Sourced from To-be-received Funds** - The Bank has the right to cancel an order if it fails to receive the funds to be received by you from another investment transaction on time and there is no sufficient fund placed by you for settlement. Any cost, charges and losses incurred as a result thereof shall be borne by you.

What are the key features?

- CLPGD - European Bullish/Bearish (One Observation Date, One Trigger Level) is a structured product embedded with foreign exchange option(s) on the reference currency pair.
- This product is designed to be held to maturity, no early termination is allowed. It is 100% principal guaranteed if you hold this product till maturity. The Tenor will be specified in the Term Sheet of the product.
- You may enjoy a higher potential return if the movement of the Reference Exchange Rate is consistent with your view (i.e. bullish or bearish).

Important Facts Statement

Currency Linked Principal Guaranteed Deposit European Bullish/Bearish (One Observation Date, One Trigger Level) 21 September 2020

- At the pre-determined time on the Observation Date **when the Reference Exchange Rate is determined**, the Bank will compare the Trigger Level with the Reference Exchange Rate and determine the interest amount of the product.
- The principal and interest amount (if any) will be paid in the Deposit Currency at maturity.

Payoff Scenario Analysis

The following examples illustrate various scenarios that determine the return / loss of investment in CLPGD – European Bullish/Bearish (One Observation Date, One Trigger Level). These examples are hypothetical and provided for illustration purpose only, and are not based on any past performance. The Bank is not making any prediction of future movements of the exchange rates of the relevant currencies.

Example 1:

Assuming that an investor holds a **bullish view** on AUD/USD; and expects that AUD/USD will appreciate from 0.942 to 0.972 or above at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined:-

Product Type	Currency Linked Principal Guaranteed Deposit – European Bullish (One Observation Date, One Trigger Level)
Deposit Currency	AUD
Reference Exchange Rate	AUD/USD exchange rate (expressed as the number of USD per one unit of AUD) at the pre-determined time on the Observation Date
Tenor	3 months (93 days for interest amount calculation)
Trigger Level	AUD/USD 0.972
Interest Rate	7.70% p.a., if, at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined, the Reference Exchange Rate is trading at or above the Trigger Level; otherwise, 0.50% p.a.
Interest Payment Date	At maturity
Principal	AUD 100,000

Important Facts Statement

Currency Linked Principal Guaranteed Deposit European Bullish/Bearish (One Observation Date, One Trigger Level) 21 September 2020

Scenario 1: Best case scenario – If the Reference Exchange Rate is trading at or above the Trigger Level at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined (i.e. Reference Exchange Rate ≥ 0.972), the investor will receive the principal and a higher interest amount at maturity.

Principal + Interest amount: $AUD\ 100,000 \times (1 + 7.70\% \times 93/360) = AUD\ 101,989.20$
Profit[#] = AUD 1,989.20

Scenario 2: Worst case scenario – If the Reference Exchange Rate is trading below the Trigger Level at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined (i.e. Reference Exchange Rate < 0.972), the investor will receive the principal and a lower interest amount at maturity.

Principal + Interest amount: $AUD\ 100,000 \times (1 + 0.50\% \times 93/360) = AUD\ 100,129.20$
Profit[#] = AUD 129.20

[#] If the Deposit Currency is not an investor’s home currency, the investor will be exposed to exchange rate fluctuation such that, when the Deposit Currency depreciates against the investor’s home currency, the loss from depreciation may offset or even exceed the potential profit as illustrated in the various scenarios above.

Scenario 3: The Bank becomes insolvent or defaults on its obligations

Assuming that the Bank becomes insolvent during the Tenor of the CLPGD or defaults on its obligations under the CLPGD, the investor can only claim as its unsecured creditor. The investor may get nothing back and suffer a total loss of his/her principal.

Important Facts Statement

Currency Linked Principal Guaranteed Deposit European Bullish/Bearish (One Observation Date, One Trigger Level) 21 September 2020

Example 2:

Assuming that an investor holds a **bearish view** on AUD/USD; and expects that AUD/USD will depreciate from 0.942 to 0.912 or below at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined:-

Product Type	Currency Linked Principal Guaranteed Deposit – European Bearish (One Observation Date, One Trigger Level)
Deposit Currency	AUD
Reference Exchange Rate	AUD/USD exchange rate (expressed as the number of USD per one unit of AUD) at the pre-determined time on the Observation Date
Tenor	3 months (93 days for interest amount calculation)
Trigger Level	AUD/USD 0.912
Interest Rate	5.30% p.a., if, at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined, the Reference Exchange Rate is trading at or below the Trigger Level; otherwise, 0.50% p.a.
Interest Payment Date	At maturity
Principal	AUD 100,000

Return Diagram

Scenario 1: Best case scenario – If the Reference Exchange Rate is trading at or below the Trigger Level at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined (i.e. Reference Exchange Rate ≤ 0.912), the investor will receive the principal and a higher interest amount at maturity.

Principal + Interest amount: $AUD\ 100,000 \times (1 + 5.30\% \times 93/360) = AUD\ 101,369.20$
Profit[#] = AUD 1,369.20

Scenario 2: Worst case scenario – If the Reference Exchange Rate is trading above the Trigger Level at the pre-determined time on the Observation Date when the Reference Exchange Rate is determined (i.e. Reference Exchange Rate > 0.912), the investor will receive the principal and a lower interest amount at maturity.

Principal + Interest amount: $AUD\ 100,000 \times (1 + 0.50\% \times 93/360) = AUD\ 100,129.20$

Important Facts Statement

Currency Linked Principal Guaranteed Deposit European Bullish/Bearish (One Observation Date, One Trigger Level) 21 September 2020

Profit[#] = AUD 129.20

If the Deposit Currency is not an investor's home currency, the investor will be exposed to exchange rate fluctuation such that, when the Deposit Currency depreciates against the investor's home currency, the loss from depreciation may offset or even exceed the potential profit as illustrated in the various scenarios above.

Scenario 3: The Bank becomes insolvent or defaults on its obligations

Assuming that the Bank becomes insolvent during the Tenor of the CLPGD or defaults on its obligations under the CLPGD, the investor can only claim as its unsecured creditor. The investor may get nothing back and suffer a total loss of his/her principal.

How can you buy this product?

- You can purchase CLPGD by visiting any of our branches with Investment Services Section or by contacting your relationship manager directly.
- The Bank will provide different structures of CLPGD for your selection.

Fees and Charges

Not Applicable

Pre-Investment Cooling-off Period for retail customers

Pre-Investment Cooling-off Period ("PICOP") is applicable to each particular dealing of this product if you belong to one of the following retail customer types:

- (1) An elderly customer aged 65 or above with no investment experience in currency-linked structured investment products, unless your asset concentration is below 20% AND you opt out from the PICOP arrangement; or
- (2) A non-elderly customer with no investment experience in currency-linked structured investment products AND your asset concentration is 20% or above.

For the purpose of determining whether PICOP is applicable, asset concentration refers to the percentage of total financial assets (excluding real estate properties) to be invested in CLPGD.

Can the Bank adjust the terms or early terminate this product?

The Bank may (in good faith and in a commercially reasonable manner) make adjustments to any terms of CLPGD upon the occurrence of one or more of the events listed below:

- there is a revaluation of the Deposit Currency or relevant currencies (i.e. the currencies in the reference currency pair);
- the Deposit Currency or the relevant currencies (i.e. the currencies in the reference currency pair) is replaced by another currency as the lawful currency of the relevant jurisdiction.

Important Facts Statement

Currency Linked Principal Guaranteed Deposit European Bullish/Bearish (One Observation Date, One Trigger Level) 21 September 2020

The Bank may terminate the deposit upon the occurrence of an event of default specified below:

- You fail to satisfy any obligation under the General Terms or Specific Terms for Asset-Linked Deposits of the Bank's Master Terms and Conditions / Master Terms and Conditions for VIP Banking (as applicable);
- A bankruptcy or winding-up petition or other similar process is presented, or a resolution is passed to effect the same, in relation to you;
- A receiver, liquidator or trustee or other analogous officer is appointed over all or a material part of your assets;
- An assignment or charge on or any dealing in respect of your right and/or obligations under the Specific Terms abovementioned has been effected (except in favour of the Bank);
- The Bank reasonably determines in good faith that there has been a material adverse change in your circumstance, business, financial conditions, legal status or capacity.

Such adjustments or early termination events may negatively affect your return or loss under this product. You may suffer a substantial or total loss of your entire principal.

Offering documents for this product

The following documents ("Offering Documents") contain detailed information about CLPGD. You should read and understand all of the Offering Documents including the risk factors before deciding whether to invest in CLPGD:

- This Important Facts Statement, and
- Term Sheet of CLPGD

In addition, you must also read and understand the governing terms under the Bank's Master Terms and Conditions / Master Terms and Conditions for VIP Banking (as applicable) including its General Terms and all its applicable Specific Terms (each as amended from time to time) in respect of your account.

Additional information

1. Unless this document triggers the Bank's suitability obligations, this Important Facts Statement does not constitute an offer, an invitation, a solicitation or a recommendation for an application or entering into any investment transaction by any person and the information contained in this document is provided for your reference only.
2. The Bank would act as principal in relation to a CLPGD transaction.
3. The Bank and/or any of its associates would benefit from the origination and distribution of this product.
4. The Bank is not an independent intermediary and receives fees, commissions, or other monetary benefits in entering into CLPGD transaction with you. For details, you should refer to the Bank's disclosure on monetary benefits which the Bank provided to you prior to or at the point of entering into transaction in CLPGD.
5. No indication, representation, guarantee or other assurance as to the outcome of any investment has been or will be given to you by or on behalf of the Bank. If you are in doubt of the contents of this Important Facts Statement, you should seek independent professional advice.
6. You should seek independent advice before making a commitment to enter into a CLPGD transaction. You should also carefully consider whether a CLPGD is suitable in the light of your own investment objectives, financial position and risk profile.
